COMPANY INFORMATION

KNOW BAAZEX.

Institutional-quality access to global markets, without the opacity.

Baazex is an online trading brand operated by **BAZ Capital Markets Ltd**, a company registered in Seychelles under registration number 8433084-1 and licensed by the Seychelles Financial Services Authority as a Securities Dealer (licence SD124). It serves retail, corporate and professional clients who want direct, transparent access to international financial markets.

The business exists to serve a specific kind of client: the trader who wants institutional-quality execution, clear pricing and a platform that doesn't get in the way. Baazex operates as a platform that assumes a fiduciary stance. That principle runs through every commercial decision. There is no minimum deposit, no commission on trades and no fee on deposits or withdrawals — pricing is visible on screen before an order is placed, not reconciled afterwards.

Through a single account, clients trade contracts for difference (CFDs) on more than 1,000 instruments across six asset classes. The forex offering covers 50+ major, minor and exotic pairs trading around the clock five days a week; the equities offering extends to 500+ share CFDs from the world's largest exchanges; and cryptocurrency markets are open around the clock, seven days a week.

Clients choose how to trade — the Baazex mobile app for iOS and Android, browser-based WebTrader, or MetaTrader 5 – all on the same account. Funding is supported through bank transfer, Visa, Mastercard, Skrill, Neteller and USDT.

VISION & MISSION

CLARITY, SECURITY, SIMPLICITY

Our mission is to make trading clear, secure and simple — for every trader, at every level. Our vision is to become the broker traders choose first and stay with longest, treating transparency as infrastructure rather than a marketing position.

Clarity
Every client understands the cost, the mechanics and the risk of a position before they open it.

Security
Client funds are held in segregated accounts under a regulated framework backed by strong capital and liquidity.

Simplicity
A platform where the interface disappears and the decision is all that's left.

MARKETS

ACCESS LEADING GLOBAL MARKETS

Six asset classes from a single trading account, with more than 1,000 trading opportunities.

Shares
CFDs on major global companies, from technology leaders to established industrials, traded across leading international exchanges.

Forex
Major, minor and exotic currency pairs in the world's largest financial market, with deep liquidity and continuous sessions.

Commodities
Energy and agricultural products linking portfolios to the physical economy, including crude oil and natural gas.

Cryptocurrencies
CFDs on leading digital assets such as Bitcoin and Ethereum, open around the clock and responsive to news flow.

Metals
Gold and silver – established stores of value and popular diversifiers, quoted against the US dollar.

Indices
Benchmark Index CFDs that track a basket of leading companies in a single instrument, without picking individual stocks.

Futures
Track prices, trading activity, and trader sentiment in futures CFD trading.

WHY BAAZEX

THE PRICING MODEL IS THE PRODUCT

Risk controls and fair pricing are standard on every account — not reserved for premium tiers.

Genuinely zero-fee
No commissions on trades and no charges on deposits or withdrawals.

Minimum $50 Deposit
Start with a minimum deposit of $50, whenever it suits you.

Millisecond execution
Orders fill at or near the intended price.

Stop Loss & Take Profit
Define your risk and your exit price at limit hours or late in gains.

Pending Orders & Alerts
Enter positions at your price and get notified when a target is hit.

Mini-sized trades
Positions from 0.01 of standard lot to size maximum precisely.

Demo account
Practice with virtual funds before committing capital.

News & calendar
Trading calendar, market news and an economic calendar built in.

Leverage is offered market by market (up to 1:5000 on forex and 1:200 on cryptocurrencies). Leverage magnifies losses as readily as gains.

RISK WARNING: Forex and CFDs are complex instruments and involve a high risk of losing money rapidly due to leverage. Most retail investors lose money when trading CFDs. Consider whether you understand how these products work and whether you can afford the risk.
